Jay Scott Berry presents a truly inspiring lecture of magic and visual effects.

Jay has spent 25 years creating a master system for powerful visual magic. These practical and versatile methods apply whether you perform close-up or stage magic, comedy or serious, for children or adults.

It is often said, that Jay's performances alone are "worth the price of the lecture". They serve as a visual reminder of the amazing possibilities you can achieve when you apply his system to your own magic.

"In my entire career, I have never seen anything as convincing. It was real magic, delivered with precision timing and consummate skill."

Mark Wilson
